

The image contains three technical drawings of a septic tank system:

- PLAN OF SEPTIC TANK:** A top-down view showing a rectangular tank with a 3.00m width and 1.50m depth. It features an A.C. COIL WITH RLY PROOF MESH on top, an A.C. 100T SW HIGH, and an R.C.C COVER SLAB. The tank is divided into sections for WASTE, SOLID, and SOLID. A 75mm T/D Tube is shown on the right side, leading to a Brick Box.
- SECTION (W):** A cross-section of the tank showing the internal structure, including the A.C. COIL WITH RLY PROOF MESH, A.C. 100T SW HIGH, R.C.C COVER SLAB, and the 75mm T/D Tube. The tank is divided into sections for WASTE, SOLID, and SOLID.
- SECTION (H):** A cross-section of the tank showing the internal structure, including the A.C. COIL WITH RLY PROOF MESH, A.C. 100T SW HIGH, R.C.C COVER SLAB, and the 75mm T/D Tube. The tank is divided into sections for WASTE, SOLID, and SOLID.
- PLAN (SEPTIC TANK DETAILS):** A detailed plan view of the septic tank showing the internal structure, including the A.C. COIL WITH RLY PROOF MESH, A.C. 100T SW HIGH, R.C.C COVER SLAB, and the 75mm T/D Tube. The tank is divided into sections for WASTE, SOLID, and SOLID.
- PLAN (SOAK PIT DETAILS):** A detailed plan view of the soak pit showing the internal structure, including the A.C. COIL WITH RLY PROOF MESH, A.C. 100T SW HIGH, R.C.C COVER SLAB, and the 75mm T/D Tube. The tank is divided into sections for WASTE, SOLID, and SOLID.
- SECTION OF LIGHTNING ARRESTER (NTS):** A cross-section of a lightning arrester showing the internal structure, including the A.C. COIL WITH RLY PROOF MESH, A.C. 100T SW HIGH, R.C.C COVER SLAB, and the 75mm T/D Tube. The tank is divided into sections for WASTE, SOLID, and SOLID.
