APPROVAL RECORD

Planning Permission

Virudhunagar district, Tamil Nadu

APPROVAL TYPE

Building Plan

ISSUING AUTHORITY

Rural Panchayat

The approval as the planning authority issued it, reproduced in full behind this page.

An approval speaks to what was sanctioned, not to what was built. Completion is a separate record.

1. The first step is to identify the location of the building and the surrounding area. This includes the street name, the lot number, and the adjacent properties. The next step is to determine the purpose of the building and the type of business that is being operated. This information is crucial for determining the appropriate zoning and the required permits.

2. The second step is to conduct a site visit. This involves visiting the property and observing the building and the surrounding area. The site visit should be conducted at a time when the building is open for business, so that the observer can see the actual operations and the layout of the building. The site visit should also include a walk-around of the property to identify any potential hazards or violations.

Prepared from the registers named on the page each finding sits on. Where a register could not be read, this document says so in its place rather than leaving the gap to be read as a clean result.
