To

The Member Secretary,
Chennai Metropolitan Development Authority,
No.1, Gandhi Irwin Road,
Egmore,Chennai – 600 008.

Letter No.DB/T5(3)/NOC5207Rendankattalai Village6286/2025/Dated:30.07.2025.

Sir,

Sub: CMDA – Proposed Laying out of House sites in the property comprised in S.No. 221/1, 221/2, 221/3A2, 221/3B2, 221/4A2, 221/5A, and 221/13 of Rendankattalai Village , Kundrathur Taluk, Kancheepuram District,with in the limits of Kundrathur Panchayat Union Limit - Specific remarks along with NOC on inundation point of view – issued – regarding.

Ref: The Member Secretary, Chennai Metropolitan Development Authority, Egmore, Chennai–8 Letter No. Layout–1 / 0132 / 2025 / Dated: 10.06.2025..

****

With reference to the 1st cited above and after careful consideration, the technical opinion along with NOC on inundation point of view of this department is here by accorded for – Proposed Laying out of House sites in the property comprised in S.No. 221/1, 221/2, 221/3A2, 221/3B2, 221/4A2, 221/5A, and 221/13 of Rendankattalai Village , Kundrathur Taluk, Kancheepuram District,with in the limits of Kundrathur Panchayat Union Limit in favour **M/S. Mohan Power Infrastructure Private Limited Represented By its Trustee Tmt. Mallika Mohandas, No.5/1, Trivandrum Road, Raja Compound, Circuit House Road, Palayamkottai, Thirunelveli- 627003.**

The proposed site was inspected and reveals that the Government Channel in S. F. No.85 and S.F. No.153 and so on, on Eastern side abutting the site originate from Chembarambakkam tank running from North to South direction and confluence into Adayar River on South boundary of Village. The Thandalam - Rendankattalai Road is running on West side of the applicant site as per village map (Union Road as per Key plan) This site is surrounded by the vacant land and Residential areas on South and Northern side of the applicant site and the Kundrathur – Pallavaram road running on Northern side of the applicant site but not abutting the applicant site as per the Key plan . As per the Revenue record these lands are classified as Dry lands. And Re- Classified as Primary Residential Areas as per CMDA, SMP.

30/7/25

In order to ascertained the gravity of inundation of the said lands, the field levels of the site Bench Mark were taken from the Sill level of the Slice No.4 of Chembarambakkam Tank(+)18.710m. The maximum Flood Level of the near the site during past flood M.F.L is (+) 17.690m. The Top level of the Kundrathur to Pallavaram Road Top Level is (+) 17.850m To protect the site safe against any inundation in the near future , the site must be raised to a minimum level of 0.60m above the MFL (OR) Road Top level abutting / nearer to the site. Whichever is higher, here Road Level is higher than MFL, Hence the site must be raised to minimum level of 17.850m+0.60m=18.450m(i e) 0.260m below the Datum of the Sill level of the Slice No.4 of Chembarambakkam Tank (ie) (+)18.710m. levels were taken at the proposed site and furnished for reference as below.

Sl. No.	R.S. No.	Existing Field Level in m	Required height of filling with respect to the Road level is (+)17.850 m+0.60m=18.450m say (+)18.450m	
			Required Level in m	Height Filling in m
1.	221/1	(+)15.570m	(+)18.450m	2.880
2	221/2	(+)15.595m		2.855
3	221/3A2	(+)15.625m		2.825
4	221/3B2	(+)15.495m		2.955
5	221/4A2	(+)15.555m		2.895
6	221/5A	(+)15.800m		2.650
7	221/13	(+)15.830m		2.620

Also the proposed land has to be raised varies from 2.620m to 2.955m with hard earth with proper consolidation to avoid inundation problem during rainy season from the existing field levels. Since, the existing field levels are below MFL and the applicant is suggested not to have regular habitation below MFL.

Based on the available Revenue records as well as considering the prevailing site condition, necessary technical opinion, the "No Objection Certificate" along with specific remarks on the inundation point of view of this department for Proposed Laying out of House sites in the property comprised in S.No. 221/1, 221/2, 221/3A2, 221/3B2, 221/4A2, 221/5A, and 221/13 of Rendankattalai Village , Kundrathur Taluk, Kancheepuram District, within the limits of Kundrathur Panchayat Union Limit is hereby issued to CMDA subject to following conditions and technical suggestion besides any other mandatory clearance and statutory permission from any other

30/7/25

organization or department for the consideration of planning permission by Chennai Metropolitan Development Authority.

Conditions:

1. The applicants' land should be filled with earth filling with proper compaction to the minimum level of (+)18.450m (i e) 0.260m below the Datum of the Sill level of the Slice No.4 of Chembarambakkam Tank (+)18.710m to protect the site from inundation during floods. The process of earth filling and compaction should be done in layers of not more than 0.30 metre depth to achieve required degree of compaction for the depth varies from 2.620m to 2.955m depending upon the existing field levels. Also, the applicants should provide emergency pumping operation for the seepage water, if it is proposed to have basement floor and as well as dewatering arrangements during flood periods. The all round pavement level within the site should not be less than (+)18.450m and the regular habitation should not be below MFL.

2. The applicants should clearly demarcate boundary of their land before commencement of any developmental activities in the presence of Revenue, Local body and WRD authorities concerned without fail and should not encroach the Government land and the same should be maintained as it is in the Revenue records.

3. The permission granted to the applicants, should not be altered / modified / changed to any others. Based on the records submitted by the applicants, the permission is granted. If any documents seem to be fake / manipulated / fabricated, in future the above permission will be cancelled without any correspondence. Hence, the applicants are solely responsible of genuinety of the documents submitted.

4. The WRD officers should be allowed to inspect the site at any time, during execution and thereafter, if necessary. Advance intimation should be given to the WRD officers concerned before commencement of work.

5. The applicants should abide by the rules and regulation of the WRD from time to time. The applicants should also abide court of law of both State & Central Government from time to time.

6. WRD is giving opinion only in connection with the inundation aspect and does not deliver any rights to the applicants to encroach the WRD / Government Lands / river. The NOC for this site from the WRD is purely issued on the basis of inundation point of view.

30/7/25

7. The applicant should not object at any time for the maintenance work / improvements work of the channel which is proposed to be carried out by WRD. The applicant should give an undertaking in writing to the effect that the above proposal will not obstruct in case any maintenance / improvements / development works as per Revenue records (FMB), which are proposed to be carried out by WRD / Local body in future periodically.

8. The WRD Channel in S.F. 85 and S.F. No. 153 in Rendankattalai Village stretch East side of the applicant boundary should be marked as per FMB and monitored and maintained by the applicant at his own cost. The width of the channel should be maintained without encroachments as per Revenue records and the hydraulic parameters of the field channel should be maintained. The applicant should make necessary periodical arrangements for free flow of water through the existing channel to the downside area within the proposed layout site. Also, the applicant should de-silt the channel periodically and remove the obstruction then and there without any hindrance for free flow of water at his own cost within the proposed land, after the completion of project also.

9. The applicants should not construct any cross masonry across the water body area without obtaining prior permission from WRD. If any damaged to the water body should be restored by the applicant at their own cost.

10. The WRD Channel in S.F. 85 and S.F. No. 153 abutting the applicant land should be completely de-silted and re-sectioned by constructing retaining wall on either side of the channel with concrete bed as per the FMB up to their stretch at the applicant's own cost. The bed level of the above channel should be ascertained and restored before commencing the development activity in the presence of the concerned WRD Executive Engineer. Moreover, the width of entire channel as per Revenue records (FMB) along & within the stretch of applicant's land should be maintained properly without any change and without encroachments.

Technical Suggestion:

(a).The applicants should prepare the layout proposal by considering the suitable internal storm water drainage as Micro drain of suitable size within the site as per prevailing site conditions . The same should be connected to the local drain / channel, rainwater harvesting, roads with road side drain and sewerage treatment and its disposal and garbages / debris and other solid waste management as per

30/7/25

norms in existence within the applicants' land according to existing rules in force and should get proper approval from competent authority without fail.

The sewage or any unhygienic drainage (Treated or Untreated) should not be let into drain / channel / course at any cost and the debris and other materials should not be dumped into the drain / surplus course obstructing free flow of water. The applicants should make drainage network, at their own cost and the same is to be connected to natural storm water drainage / channel. There should not be any hindrance to the free flow of internal drain to downstream.

(b).The applicant should provide necessary setback distance within the site as per site condition as per the norms in existence and as per the rules in force of CMDA (as per the circular issued by the office of the Commissioner of Town & Country Planning, Chennai–2 vide Roc. No.4367 / 2019 / BA2 / Dated: 13.03.2019) during development and there should not be any construction activities in the setback areas in future also. The CMDA should issue completion certificate only after obtaining completion certificate NOC from WRD.

(c).The applicants' lands are seems to be **Ryotwari** land which would be classified as **Dry** lands. Hence, these lands are to be converted into other zone from the agricultural zone by the competent authority. The applicants should get clearance certificate for this site from the Revenue department to make sure that the site is not an encroached property from the water body as well as confirming this proposed site boundaries.

(d).The sewage water from the applicants' land should not let into the drain and for the disposal of the sewage water, suitable arrangements should be made for the same by the applicants, and as well as the construction materials / debris / garbage's should not be dumped into the River / Eri / Channel / Pond at any cost.

At any cost, sewage / sullage should not be let into River / Eri / Channel / Pond, and the garbage's,/ debris and construction materials should not be dumped into the River / Eri / Channel / Pond restricting the free flow of water.

The owner of the document received from the applicants in respect to the ownership is purely of applicants' responsibility and it is only for reference purpose to this department. The legal validity of this document should be verified by the Development / Revenue authorities. The specific remarks on inundation are purely issued on technical grounds in respect to the physical location of land. 30/12/25

Failing to comply with any of the above conditions, WRD reserves rights to withdraw the Technical opinion on inundation point of view to the above proposed site and in event, the applicants shall not be eligible for any compensation whatsoever and as well as legal entity.

THE LANDLENS SUITE

Eight ways to know a piece of land before you pay for it.

This report covers one part of the picture. These cover the rest, drawn from the same government records, for any property in Tamil Nadu.

LandLens One
Ask anything about a property and get an answer grounded in live government records, with the sources shown.
/landlens/one

Verify My Land
Every record check run on one property and returned as a single report.
/landlens/verify-my-land

Legal Opinion
An advocate's written opinion on the title, built on the records we pull for it.
/landlens

One Map
Every layer on one map: the parcel, its boundary, zoning, water bodies and what sits around it.
/landlens/one/map

PriceMap
What land actually changed hands for around this plot, taken from the registered deeds.
/landlens/pricemap

Build Scope
What you are allowed to build here: floor space, height, coverage and setbacks.
/landlens/build-scope

Property Tracker
Watch a property and hear about it when something new is registered against it.
/landlens/property-tracker

Deal Room
Run the transaction in one place: documents, stamping, signatures and the parties.
