Sub: Clarification regarding HT Line passing near my site – reg.

One HT line is running only on the southern side of the layout. We have provided the proper setback as per DTCP norms. This has already been verified and confirmed by both the DTCP and the local body authorities.

It is also clarified that no additional fees are applicable since the required setback has been duly maintained. In the drone image, the shadow of the HT line appears in a different direction, which has caused some misunderstanding. I kindly request you to verify the same and confirm that the HT line does not pass through my site.

Thanking you,

J. Arumachalam

Prepared from the registers named on the page each finding sits on. Where a register could not be read, this document says so in its place rather than leaving the gap to be read as a clean result.
